## CHARLOTTE SKINGLE PHOTOGRAPHER

Charlotte captures candid imagery of individuals as their true selves, living in the moment, they are perceived with a high standard of clarity & dramatic tones developed uniquely to a client's design. Using natural light as her medium and a creative approach during photo shoots, the work combines ideals of realism and the constructed image. It's about visualising the possibilities of an environment and styling that space to suite the subject but keeping the shots pure and distinct. Charlotte is taking the initial steps to become an established business owner of her very own photography studio, while currently offering her photographic services to a range of clientele.
